Hi guys,

It's been a while. I have been working with Bill Jordan on following the revisions to the Agricultural Worker Safety Rule and Certification Standards. Rules are generally sent to the SAP before they go to OMB for review. These rules are currently at OMB. But we don't think they have been sent to SAP for review. I am writing to confirm this.

We think there are some important scientific issues that would benefit from SAP review so we are urging the SAP not to waive the review of these rules. We will be drafting a letter to this effect.

In addition, i was communicating with Marion Ehrich about this and she told me she was leaving the SAP on July 1. Are other "permanent" members leaving? Have replacement(s) been named?

Thanks.

Tina Levine
